- IPO -

2025

Founded in 2013, AGROTECH High Technology and Investment Inc. has rapidly specialized in Turkey's high-potential sectors, growing through high value-added production and extending this success to global markets. Today, we operate in more than 22 countries.

# FOR MORE THAN 10 YEARS, AN IMPORTANT ACTOR WITH A CREDIBLE ROLE

While continuing our diverse range of activities in agriculture — including soilless farming, good agricultural practices, greenhouse cultivation, and contract farming — guided by the latest agricultural technologies, we primarily provide direct and indirect employment to thousands of people. In technology, we continue to grow by offering next-generation solutions such as industry-specific software, data, cloud solutions, the Internet of Things, digital transformation, and artificial intelligence.

## BRIDGING THE OLDEST AND THE NEWEST SECTORS: **AGRICULTURE & TECHNOLOGY**

Facing global challenges like climate change and food security, we invest in agriculture and technology by combining our international experience with digital innovation.

**With data-driven systems, IoT, drones, and image processing, we aim to boost traceability, planning, food safety, and productivity—elevating both quality and global competitiveness.**

# TECHNOLOGY SERVICES

AGROTECH offers a comprehensive range of innovative products and solutions that merge agriculture with cutting-edge technology. From smart agriculture systems to digital banking and healthcare solutions, the company provides scalable, data-driven tools tailored for modern needs. Its integrated services include database management, cloud technologies, system integration, and proprietary platforms like ByChat and Agrotech AI—designed to enhance efficiency, connectivity, and sustainability across industries.

## SOLUTIONS

- SMART AGRICULTURE SOLUTIONS
- DATABASE SOLUTIONS
- DIGITAL BANKING SOLUTIONS
- DIGITAL HEALTHCARE SOLUTIONS
- E-GOVERMENT SOLITIONS
- SYSTEM INTEGRATION
- CLOUD SOLUTIONS
- AI SOLUTIONS
- MARKET PLACE AI

## PRODUCTS

- AGRO IOT
- AGRO DRONE
- OPEN HIS
- AGROTECH AI
- AGROSS AI

# TECHNOLOGY SERVICES PRODUCTS

AGROTECH offers smart agriculture powered by AI and data, seamless mobile banking apps, secure digital healthcare systems, and cloud-based IT access through ByChat - delivering efficient, connected, and innovative solutions to meet the evolving demands of modern industries.

TECHNOLOGY SERVICES / PRODUCTS

# SMART AGRICULTURE SOLUTIONS

Smart farming refers to the integration of traditional agricultural practices with modern technology and data analytics. Using technology at every stage of farming is crucial for improving productivity, quality, and sustainability. Digital agriculture involves technologies such as data collection, analysis, automation, and machine learning.

- AGRO DRONE
- INTERNET OF THINGS (IOT)
- IMAGE PROCESSING AI
- UAV (UNMANNED AERIAL VEHICLE)
- DIGITAL AGRICULTURE TECHNOLOGIES
- AUTONOMOUS FARMING MACHINES
- MARKETING AND TRADE

# DATABASE SOLUTIONS

AGROTECH’s technology team includes over 100 experts in IT-related disciplines such as business analysis, software and hardware engineering, system design, and project management. With the inclusion of on-site support staff, the total team exceeds 500 professionals. This includes individuals with backgrounds at leading global tech companies such as Oracle, Microsoft, and ETC, as well as MIT graduates. Combining international experience with advanced technical expertise, the team continuously tracks industry trends to stay current. This diverse and highly qualified technology team, dedicated to customer-focused and innovative solutions, has positioned AGROTECH as a globally trusted technology partner.

**Agrotech and Grid Group MENA Technology Team consists of experts in:**

- Software Engineers / Programmers
- Hardware and Systems Engineers
- Network Engineers
- Project Managers (PMP, CPHIMSS certified)
- Product Specialists
- Experienced IT Technicians
- IT Standards and Classification Specialists
- IT Governance Experts
- Training and Implementation Team
- R&D Team
- Certified Technical Experts

TECHNOLOGY SERVICES / PRODUCTS

# SYSTEM INTEGRATION

Agrotech provides a wide range of system integration services starting from consulting to system support and maintenance, server and data storage, security solutions, infrastructure services, ERP, and software development.

TECHNOLOGY SERVICES / SOLUTIONS

# CLOUD SOLUTIONS

Cloud systems are a service model that provides access to shared IT resources over the internet. They can be used for a wide range of purposes. Here are some examples of what can be done with cloud technologies:

- DATA STORAGE AND BACKUP
- WEB HOSTING
- APPLICATION DEVELOPMENT
- DATA ANALYTICS
- MACHINE LEARNING AND AI
- OFFICE PRODUCTIVITY
- GAME SERVERS
- IOT (INTERNET OF THINGS)
- VIDEO STREAMING AND MEDIA STORAGE
- SECURITY AND BACKUP
- TRAINING
- SAAS (SOFTWARE AS A SERVICE)
- RESPONSIVENESS AND SCALABILITY
